Reproducible manuscript, ex2

Polina Revina

About

This is a manuscript with replication of study by Boulesteix et al. (2020) for markup course exercises.

Libraries

If libraries aren't installed, you can do this with `install.packages()` command.

```r
# libraries:
library(Hmisc)
```

```
Warning: package 'Hmisc' was built under R version 4.3.3
```

```
Attaching package: 'Hmisc'
```

```
The following objects are masked from 'package:base':

    format.pval, units
```

```r
library(mice)
```

```
Warning: package 'mice' was built under R version 4.3.3
```

```
Attaching package: 'mice'
```
